SIR:

Applicant herewith requests that a corrected Filing Receipt be issued
setting forth the Priority Number, third inventor's correct city of residence and the
correct spelling of the title of the application. In the Filing Receipt as mailed to the
undersigned, the Patent and Trademark Office has indicated third inventor's city
of residence as "Saarlouis instead of the correct city of --Saarbrücken--.

The title of the application is indicated as "... qunatitative determination
..." instead of the correct --... quantitative determination ...--.

Attached is a copy of the filing receipt showing the requested corrections.
Issuance of a corrected filing receipt is requested.

Upon filing the above-referenced patent application, applicant's attorney erroneously indicated third inventor's city of reference as "Saarlouis" instead of the correct --Saarbrücken--, and the file umber of the priority application had been erroneously indicated as "101 22 711.1" instead of the correct --101 23 711.1--.

Simultaneously herewith, applicants are filing a duly signed and dated declaration which indicates the correct data. With regard to the title of the application, reference to the application papers will clearly show the correct spelling of the title. In addition, enclosed herewith is a corrected cover sheet as well as a corrected first page of the instant specification.

Although two of the above-indicated errors were caused by the applicant, it is believed that no fee is due (35 U.S.C. 254).

The Commissioner is hereby authorized to charge any fees which may be required, or credit any overpayment to Deposit Account No.: 06-0502.

Respectfully submitted,

By:

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
